PROFILE

I'm a software engineer with three years of experience in the field of web application development. I have been mainly working on front end development with scalable frameworks, with knowledge of some backend technologies. Adept at agile development process with an urge for scale, performance and architectural elegance. Now looking for opportunities to develop myself and my career by working on different environment and technologies.

My job responsibilities mainly include working with front end development but I have acquired enough skills to present myself as a full stack developer as I have had opportunities to oversee projects throughout it's full life cycle.

SKILLS

Angular	C/C++
Javascript	C#/Java
Html/CSS	Shell
Node	OpenGL/Php
SQL (mySQL, Oracle)	Rest-api
Automation (e2e, unit)	Web hosting
Docker	Kubernetes
Amazon web service	CI/CD
Travis-CI	Jenkins

TOOLS

Vs studio, Postman, Insomnia, Source control (sourcetree, git kraken), photoshop. Fimiliar with vps, iis, nginx, data scraping, task automation.

THESIS

Low cost data communication and key based authentication for ambient assisted living

EDUCATION

Bsc in Computer Science and Enginnering (CSE)
American International University- Bangladesh (AIUB)
CGPA : 3.36 (2014-2017)

Higher Secondary/Secondary School Certificate
Dhaka Residential Model Collage (DRMC)
